The Five Steps to Epic Adventures

Step 1—Idea: Every success starts with an idea. Keep your idea clear of other people's influences. There are no good or bad ideas.

Step 2—Desire: You measure your ideas by your desire. Do you have high desire or low desire?

Step 3—Vision: Your vision is the cornerstone of everything else. For a focused effort you need to clearly see your idea to completion.

Step 4—Motivation and Commitment: Motivation inspires Commitment. If your desire is high and your vision is clear than your commitment to stay the course remains strong.

Step 5—Action: To achieve expected results, you must act. What are you willing to do to see your idea through to completion?
